

Tailings Recovery Systems

Are you losing metals in your waste stream?

- ERS Tailings Recovery Systems recover all the metals
- We can add our system to your existing chop line - no matter the volume

ASR Processing (Auto Shredder Residue)

ERS designs systems to fit your specific needs:

- Complete ASR Recovery Systems
- Shredder wire systems– We recover what sorters miss
- ASR Fines (1"minus) Systems: Just because you don't see the metals it doesn't mean it's not there

Wire Chopping Systems

500 to more than 10,000 lbs/hr

- #1 & #2 Insulated copper wire
- Auto Harness Wire
- Communications Cables
- Insulated Aluminum Wire
- Aluminum / Copper Radiators
- ACSR

ERS has the best metals recovery rate in the industry.

WE GET ALL THE METALS OUT!

Metal Recovery and Refining Solutions

Our systems produce
domestically saleable products

Stop Outsourcing Your Value.

Highest Quality Components & Leading Technology

Knowledge, Expertise & Experience

Partnership & Long-Term Strategy

Customized Solutions

Sustainability

Take Back the Metal. Take Back the Margin.

Core Recycling Equipment

- Vertical Mills
- The Original Turbo Mills
- Pre-shredders
- Granulators
- Air Density Separation Tables

Stop outsourcing your scrap value

ERS puts recyclers in control

Process wire, ASR, ICW, tailings directly

No delays, no contracts, no middlemen

Want to see it in action?

Our ERS Test Facility is open for material trials and performance validation. It's not a sales pitch—it's your proof point.
